Michael S. Gazzaniga, Ph.D.
Director, SAGE Center For the Study of the Mind
Professor of Psychology, University of California – Santa Barbara

will deliver the

Decade of Behavior Distinguished Lecture

Brain Science and the Law: Did My Brain Make Me Do It?

Wednesday, April 15, 2009  12:25 p.m.
San Diego Convention Center, Ballroom 6E

Michael S. Gazzaniga, Ph.D., an international expert on brain mechanisms associated with personal human consciousness, is Professor of Psychology at the University of California-Santa Barbara and Director of the University’s SAGE Center For the Study of the Mind, where interdisciplinary study is fostered between the brain and the mind at the nexus of psychology and neuroscience. An outstanding leader in psychology and neuroscience, Dr. Gazzaniga has conducted significant research and published widely, including the landmark scholarly book, The Cognitive Neurosciences, as well as The Ethical Brain, The Mind’s Past, Nature’s Mind and Mind Matters. He founded the Journal of Cognitive Neuroscience and served as its first editor. Dr. Gazzaniga, who received his Ph.D. degree from the California Institute of Technology, is an elected Fellow of the American Association for the Advancement of Science, American Neurological Association, Society of Experimental Psychologists, and the American Psychological Association, and an elected member of the Institute of Medicine. He has served on the President’s Council on Bioethics since its inception in 2002.

The Decade of Behavior, in which AERA participates as an endorsing society, is a multidisciplinary initiative to focus the talents, energy, and creativity of the behavioral and social sciences on meeting many of society’s most significant challenges. The Decade’s five themes concentrate on national challenges: improving health and education, promoting democracy, and increasing safety and prosperity. Behavioral and social scientists are encouraged to bring research results forward to help inform the public and the policy process. This lecture is made possible by a grant from the James S. McDonnell Foundation. For details, please visit www.decadeofbehavior.org
