Educational Evaluation and Policy Analysis (EEPA) publishes scholarly manuscripts of theoretical, methodological, or policy interest to those engaged in educational policy analysis, evaluation, and decision making. EEPA is a multidisciplinary policy journal, and considers original research from multiple disciplines, theoretical orientations, and methodologies.

The journal seeks high-quality research on how reforms and interventions affect educational outcomes; research on how multiple educational policy and reform initiatives support or conflict with each other; and research that informs pending changes in educational policy at the federal, state, and local levels.
