Educational Researcher (ER) publishes scholarly articles that are of general significance to the education research community and that come from a wide range of areas of education research and related disciplines. ER aims to make major programmatic research and new findings of broad importance widely accessible.

ER encourages submissions of three types of research articles—feature articles, reviews/essays, and briefs. Technical comments may also be submitted. In addition, ER publishes commentary articles under the demarcations of policy forum, letters, and books et al.
