The Educational Researcher accepts text classified advertisements at a rate of $15.00 per line. Copy for ads must be a single double-spaced paragraph, may be faxed, and must be received five weeks before the first day of the month of issue for single issues, and December 2 for January–February, May 5 for June–July, and July 7 for August–September. Purchase order or payment must accompany order or an invoicing fee of $5.00 will be added. To be accepted for publication, all employment ads must include a statement that the employer is an Equal Opportunity Employer and must have a deadline for application no earlier than the end of the month of issue (or February 15, July 15, and September 15 for double issues). After an insertion order has been placed, an ad is final and cannot be removed from an issue. Headings are subject to editing for brevity and to avoid duplication within an issue. To place an advertising order or to request information or a brochure, contact Advertising Coordinator, Educational Researcher, 1230 17th St., NW, Washington, DC 20036-3078, 202-223-9485, advertising@aera.net.

Vice President
Research

ACT, Inc., a recognized leader for providing assessment and information services for education and business is inviting applications for the position of Vice President of Research in ACT’s Education Division. The Vice President of Research is responsible for managing, directing and providing leadership for research programs to:

- Address issues related to the development, reliability, validity, interpretation, and use of scores on assessments.
- Develop psychometric models and methods of analysis to support new types of items, new forms of assessment, and new services.
- Build and maintain the infrastructure (both staff and technology) needed to support ongoing operations for current programs/services, development of innovative assessments, and new product/service development.

Requirements include a doctoral degree in educational measurement, statistics, or psychology with a solid quantitative background. Post-doctorate experience reflecting at least 7-10 years of progressively responsible management responsibilities, a commitment to promoting educational opportunity and human development, strong writing and speaking abilities, and effective interpersonal skills. High level of technical competence in and demonstrated application of measurement and research methodologies, and experience using computer technology in research applications.

ACT offers an attractive compensation package including excellent benefits. To apply, email your resume and cover letter, in MS Word or text format, to: Human Resources Department, employment@act.org. For more information about ACT, visit our website (www.act.org).

ACT is an Equal Opportunity Employer and Values Diversity in People and Ideas.
MONTRÉAL MERRIMENT COMING!

April 2005 will mark the arrival of the 13th Triennial Travesties, one of AERA’s least traditional and most irreverent events. Of particular interest to long-time Travesties followers, the Montreal rendition will see the return of one of the original 1969 Travesties superstars. Having identified with the behavior of his own academic idols—Michael Jordan and George Foreman—Lee Shulman has graciously agreed to emerge from comedic retirement. Membership interest in Shulman’s exhumation is sure to be unparalleled.

If you wish to be considered for participation in the 2005 Travesties, please submit evidence of current or past hilarity so that your guffaw-causing capacity can be evaluated by an independent gaggle of genuinely grumpy reviewers. Simply submit electronic evidence to wpopham@ucla.edu or, if nonelectronic evidence is preferred, send at least four copies to W. James Popham, UCLA Professor Emeritus, c/o 1706 Keoniloa Place, Koloa, HI 96756. The submission deadline is August 1, 2004.

Evidence of an applicant’s laugh-laden talent may include (because of the annual meeting’s locale) farcical French pastries, major French-language motion pictures, or anything else.

AERA is pleased to announce continued support for the AERA Grants Program from the National Science Foundation (NSF) and the National Center for Education Statistics (NCES) of the Institute of Educational Sciences. The program provides funding for education policy- and practice-related research which uses quantitative methods to analyze the large-scale, nationally and internationally representative data sets supported by NCES and NSF. All awards are competitive, with selection based on the excellence of the proposed research and the expertise of the awardees. Congratulations to the following outstanding researchers who have been awarded funding through the AERA Grants Program in the 2003-2004 academic year.

RESEARCH GRANTS
Lynn Addington, American University
Rachelle Brooks, Association of American Universities
Thomas Dee, Swarthmore College
David Figlio, University of Florida
John Logan, University at Albany, SUNY
Joanne Roberts & Nancy Marshall, Wellesley College
Salvatore Saporito & Deenesh Sohoni, College of William and Mary
Laura Stapleton, University of Texas at Austin
James Williams, George Washington University

DISSERTATION GRANTS
Emily Beller, University of California, Berkeley
Katerina Bodovski, Pennsylvania State University
Jacob Cheadle, Pennsylvania State University
Gayle Christensen, Stanford University
Allison Gruner, Harvard University
Michal Kurlaender, Harvard University
Megan Kurlychek, Pennsylvania State University
Amy Langenkamp, University of Texas at Austin
Yan Lee, University of California, Los Angeles
Kimberly Lowry, University of Central Florida
John Luczak, Stanford University
Jason Meyers, University of Texas at Austin
Michelle Reinstein, Stanford University
Karen Ross, University of Michigan
Liang Zhang, University of Arizona and Cornell University

Further information about the AERA Grants Program is available on the website below or contact Jeanie Murdock, phone 805-964-5264 or email jmurdock@aera.net.

AERA JOURNALS COLLECTION
ON CD-ROM

NOW AVAILABLE

Order This Essential CD Resource Today!

An Invaluable Tool for the Researcher—

- Capacity to search six AERA journals on any topic, by any name, by any term with a single query
- Comprehensive Collection: all journals from first issue through final issue in 2000
- Each CD has a built-in search engine to minimize switching
- Articles can be downloaded
- Articles are formatted as they originally appeared

- ELECTRONIC JOURNALS COLLECTION OF THE AMERICAN EDUCATIONAL RESEARCH ASSOCIATION
